

## **iOS Developer**

Bandyer is a fast-growing reality, innovative and smart. We develop a video communication solution based on WebRTC to be integrated within any corporate environment and device! We are always looking for new talents to join our team and share our success; if you are ready for a new challenge and to give 100% for a great reality, here is what we are looking for.

### **We offer:**

- Growing, young, dynamic team
- Personal and professional growth
- Flexibility and autonomy
- Passion
- Permanent contract

### **We look for:**

Bandyer is now looking for an iOS Developer passionate about new technology and goal oriented. The resource will be responsible for developing and integrating iOS applications.

### **Requirements:**

- 3-5 years of previous experience
- Expert knowledge of Objective C and Swift
- Good knowledge of web services and communication protocols (REST, SOAP) and real time through socket TCP
- Knowledge of gradle, and third parties libraries
- Proficient understanding of code versioning tools, such as GIT
- Proactive approach and ability to work autonomously

### **Nice to have:**

- Computer engineering degree or similar
- Experience in WebRTC
- Good knowledge of unix environment to build, debug and deploy native libraries
